

Skyline Tools Inc.

We've been developing inventory control systems for the Canadian collision market since 2015, always striving to create the best solution for every shop—without huge upfront costs or product limitations.

We are a digital solution for shops and owners, giving you secure access to your data in real-time, from any connected device.

SKYLINE TOOLS

TAKE CONTROL

Skyline Tools is a must-have tool for all collision shops, from banners to independents.

NO CONTRACTS

NO SETUP COST

NO RESTRICTIONS

EVERY SHOP

OUR VISION

Skyline Tools functions to better integrate shops and their materials. With on-demand, up-to-date information about every piece of inventory that passes through your shop, you can streamline distributor deliveries and order products before you run out. Skyline Tools gives your shop the best chance to make material profits.

Every shop, no matter the size, will benefit from using skylinetools.ca

- 01.** Place orders based on approved product lists
- 02.** Send orders digitally from any connected device
- 03.** Check deliveries for accuracy and mark as received
- 04.** Track materials purchased to each technician and the job
- 05.** Create 3rd-party invoices for recovery by job

SKYLINE TOOLS ADVANTAGES

Clearly labeled, approved, stocked materials

Order from any tablet or phone with an internet connection

Track materials by technician usage

Add materials to repair orders / jobs

No large purchases necessary

No contracts required

YOUR SHOP'S PATH TO SUCCESS IS BECOMING AN ORGANIZED SHOP, HAVING A STREAMLINED ORDERING AND RE-STOCKING PROCESS, TRACKING MATERIALS USED PER JOB, CREATING 3RD-PARTY INVOICES, AND USING SKYLINE TOOLS TO MINIMIZE MATERIAL SPENDING WHILE MAXIMIZING MATERIAL PROFITABILITY.
